Resource Description

Communication: M

resource focus on research or methods on how to communicate or frame issues on climate change; surveys of attitudes, knowledge, beliefs about climate change

A focus of content

Communication Audience: M

audience to whom the resource is directed

Researcher

Exposure: M

weather or climate related pathway by which climate change affects health

Ecosystem Changes, Temperature

Geographic Feature: M

resource focuses on specific type of geography

None or Unspecified

Geographic Location: M

resource focuses on specific location

Global or Unspecified

Health Impact: M

specification of health effect or disease related to climate change exposure

Infectious Disease

Infectious Disease: Vectorborne Disease

Vectorborne Disease: Mosquito-borne Disease

Climate Change and Human Health Literature Portal

Mosquito-borne Disease: Malaria

Mitigation/Adaptation: ™

mitigation or adaptation strategy is a focus of resource

Adaptation

Resource Type: **™**

format or standard characteristic of resource

Policy/Opinion

Timescale: M

time period studied

Time Scale Unspecified
